- Android Java(basics)

Tools:

- Azure DevOps
- Git/GitHub/GitLab/Git CLI
- IDEs (Visual Studio, Visual Code, IntelliJ, SQL Server Manager Studio)
- Jira
- Agile/SCRUM
- Browserstack Testing Platform

RELEVANT EXPERIENCE

Web FullStack Developer

ServSuite, A FieldRoutes Company

May 2013 – November 2023

Remote

- Demonstrated leadership and advanced technical skills by spearheading the development of Web Applications from inception to ongoing maintenance, proactively addressing user requests and implementing new features to elevate functionality.

- Diagnosed and resolved complex technical issues, demonstrating expertise and efficiency by reducing a backlog of 600+ open tickets to less than 50 within 3 months.
- Utilized a comprehensive array of cutting-edge technologies, including C#, VB.NET, Vue.js, React.js, JavaScript, jQuery, Git, HTML/CSS, SQL queries, and DevExpress, to architect, optimise, and sustain high-performance applications.
- Fostered seamless collaboration across teams, ensuring synergy between web and mobile application functionalities by effectively coordinating with the Mobile Application and Production teams.
- Distinguished member across multiple specialised teams, such as the Web Core Team, Red Code Team, Rollins, Reporting, Xamarin Mobile and the traditional MA (AIR), Production Team, showcasing adaptability and a broad scope of expertise.

Notable Achievements:

Led a small team from project inception through to the allocation of long-term development funding for a new mobile application built with Xamarin

Independent Game Developer(Co-Founder) WootraGames

2009 - 2013
Skopje

Lead programmer and Team Leader, designing and developing games for the web, flash-based and mobile games.

(Please note that due to the nature of the technology, for the linked games to be able to run, additional software is needed to be installed)

- Carveola Incident (<https://www.newgrounds.com/portal/view/568981>)
